TO: Paul Doherty, ARPO

THRU: Deborah Kopsick, ARM, EE/FIT  
DATE: September 24, 1986  
SUBJECT: Telephone survey of facilities thought to handle  
asbestos or products containing asbestos  
TDD # R-07-8601-06

In support of TDD # R-07-8601-06, an attempt was made to contact KIERNAN-GREGORY CORP. (DEFUNCT) by telephone to determine if they currently use asbestos or had used it in the past at their facility. After extensive research, no additional information could be obtained with respect to this site based on the name and address as supplied by EPA. In several cases, the phone number available is no longer valid or the company has disbanded. However, there is still an address which can be visited and an field interview can be sought with the current occupants of the address. Since the physical site has the potential for being contaminated with asbestos, it is our recommendation that preliminary assessments SHOULD be performed on the address listed in the site identification data below.

### I. SITE IDENTIFICATION

Site name: KIERNAN-GREGORY CORP. (DEFUNCT)
